

Oxygen Analyzer Pro OX-100

Data storage for up to 50 Data set

- Measures oxygen content down to 100 PPM (0.01%)
- Automatic calibration
- USB interface for data transmission and storage
- Audio-visual alarm signal at the end of the rinse time
- Software on Windows basis

Part.-No.	Description
RG350140	Oxygen Analyzer Pro OX-100

Advantages and details:

The most advanced and CE approved oxygen monitoring device, the PRO OX-100B not only measures oxygen content down to 100 PPM (0.01%) during the purging process, but is equipped with a Bluetooth transmitting device that allows the oxygen monitor to send the oxygen readings wirelessly to a Bluetooth receivable device, operators may view the readings from a remote location.

- Integrated automatic pump
- Automatic calibration
- Data storage, up to 50 Data sets
- USB interface for data transmission and storage
- Audio-visual alarm signal at the end of the rinse time
- Very fast reaction time
- Rechargeable 9V battery
- Chemical measuring cell
- One year warranty on the sensor

Technical details :

Measuring range:	100 - 200.000 ppm O ₂
Voltage	110 VAC - 240 VAC
Interfaces	USB typ B
Operating temperature	0° - 50° C
Dimensions (LxWxH)	171 x 90 x 38 mm
Weight	450 g
Language	English, German, Spanish and Portugese
Operating time	Up to 2 hours

Content of delivery:

- Pro OX-100 Monitor and Sensor
- Polycarbonate Carrying Case
- Neoprene Extension Tubing (5' or 1.5 M) with Quick Connect Fittings
- Slender Stainless Steel Probe
- Rechargeable Battery, Power Supply/Charger: (US and Euro Formats)
- USB Cable
- Quick Instruction Card
